Cornwall Together

* Loft insulation savings of £185* are estimated figures based on insulating a gas-heated, semi-detached home, three bedrooms with 50mm loft insulation. Source: National Insulation Association. Gas and electricity savings of up to £247* are based on a medium user with an annual consumption of 16,500kWh gas and 3,300kWh electricity. Savings figure based on a customer in the SWEB energy region supplied by the incumbent supplier (British Gas for gas and EDF Energy for electricity) paying on receipt of bill, compared to the cheapest direct debit plan available on the market as at 27th July 2012.
